

144-core quad-network integrated fiber optic distribution box

Overview

The SJ-ODB-M18-B metal fiber optic termination box is a durable, compact solution for managing and distributing up to 144 fiber optic cores, ideal for outdoor use in large-scale network installations. These enclosures are categorized based on their deployment environment, installation method, and functional requirements. 144 Cores ODF Unit is pre-assembled with couplings and pigtails and splice cassettes and Fiber Optic ODF has an integrated fiber guiding. Fiber Management Tray also called ODF Distribution Box, Integrated Splicing and Distribution ODF. Request a quote or download specs. Telhwa's 144 cores fiber cross connect cabinet delivers exceptional density and. SEESUO 144-218 cores cabinets are suitable for optical transmission network and the optical access network, to realize the connection and dispatch of the trunk optical cable and distribution optical fiber.
