

8-Port Fiber Optic Adapter Panel

Overview

The 8 Port Fiber Patch Panel is a compact wall mount enclosure designed for indoor fiber optic distribution. It supports up to 8 adapter ports, compatible with SC, LC, FC, and ST adapters, providing efficient fiber termination and management. Number of Ports: 12, 6, 8 & More. This panel snaps in for easy expansion and compliance with TIA/EIA-568-C. Reserve space for future fiber optic needs with our. NG4access[®] Cabled Modules available in all module sizes and fiber counts up to 864 fibers NG4access[®] Splice Tray Four sizes of interchangeable Propel fiber pass-through adapter packs provide the breadth of capabilities for virtually any configuration. Customization options are available to meet diverse requirements. It is used for direct connection and branch connection of indoor optical fiber, and plays the role of storage of tail fiber disk and protection of joint.
