

Aluminum Alloy Cable Management Frame Brands

AI Overview

Key manufacturers of aluminum alloy cable management frames include Mouser Electronics, EAE Electric, Satie Systems, ABB, and B-Tech International. Mouser Electronics offers a wide range of aluminum alloy wire and cable management products, including trays, ladders, and modular frames. They provide detailed inventory, pricing, and datasheets, making it a convenient source for both standard and specialized cable management solutions. EAE Electric specializes in aluminum cable trays and ladders that are lightweight, corrosion-resistant, and suitable for both indoor and outdoor applications. Their products feature high load capacity, thermal conductivity to prevent cable overheating, and easy installation. Aluminum cable trays from EAE are approximately half the weight of steel equivalents, offering flexibility and durability for industrial and commercial installations. Satie Systems manufactures custom aluminum frames for cable management, including Proclip® and Prolight® solutions. These frames are designed for modular applications, allowing baying together of enclosures and dual-access cabinets. They provide adjustable depth spacers, U-shaped wire routing brackets, and wiring combs for organized installation of DIN-mounted and screw-mounted devices. ABB provides metal framing and cable tray systems, including aluminum alloy options. Their Kindorf® 1 1/2" modular channel system and T&B® cable trays offer modularity, multiple plating options, and a wide range of accessories. ABB emphasizes labor-saving installation and adaptability for various cable, pipe, and conduit applications. B-Tech International offers premium aluminum cable managers designed for robust and lightweight cable organization. Their products are suitable for AV, IT, and industrial setups, providing...
