

# Angola Imported Fiber Optic Fusion Splicer Equipment

## AI Overview

Angola has access to a variety of imported fiber optic fusion splicer equipment, including high-precision, portable, and industrial-grade models suitable for FTTH, trunk lines, and professional fiber optic projects. Available Equipment and Features Fusion splicers in Angola range from compact, portable units to high-precision industrial machines. Common features include: Core alignment technology with auto-focus and multi-motor operation for accurate splicing of single-mode (SM) and multi-mode (MM) fibers. Fast splicing and heating times, e.g., some models achieve fusion in 9 seconds and heating in 26 seconds. Low splice loss, typically 0.01-0.04 dB depending on fiber type. Durable and portable designs, suitable for fieldwork and indoor installations. Accessories included: fiber cleavers, strippers, power meters, electrodes, cold cutting frames, and carrying cases. Leading Brands and Suppliers Fujikura: Offers benchtop, field, and mass fusion splicers with dual-axis camera viewing, automatic arc calibration, and ruggedized designs resistant to dust, rain, and impact. AFL provides training, maintenance, and custom splicing services. Aitelong: Supplies a wide range of optical fiber splicing machines, PON power meters, and testing instruments in Angola, including SAT-series fusion splicers and digital clamp meters. Other imported models: High-precision machines like the A-80s series are available for FTTx and cable projects, offering multiple splicing modes and high return loss (>60 dB). Local Market and Importers Angola has an active market for fiber optic equipment, with buyers and importers seeking SM, MM, NZ-DS, EDF, pigtail, and rubber-insulated fibers. Local importers can connect with global suppliers to source equipment for telecommunications, security monitoring, and FTTH projects. Platforms like TradeWheel and Aitelong provide catalogs and direct supplier contact...
