

Azerbaijan Cable Tray Prices and Manufacturers

AI Overview

Cable tray prices in Azerbaijan range from approximately \$2 to \$25 per meter depending on material, type, size, and finish, with applications spanning construction, industrial, and infrastructure projects.

Pricing Overview

Cable tray costs in Azerbaijan vary based on material, type, size, and surface finish. Common materials include:

- Galvanized steel:** Most common, balances durability and cost.
- Stainless steel:** Corrosion-resistant, higher price.
- Aluminum:** Lightweight and rust-proof, moderately expensive.
- Plastic trays:** Budget-friendly, suitable for light loads.

The type of tray also affects price:

- Ladder trays:** Support heavy cables, higher cost.
- Wire mesh trays:** Cheaper, ideal for lightweight wiring.
- Perforated trays:** Can reduce costs by 15% or more compared to ladder trays.

Bulk orders or project-based procurement can further reduce per-meter costs. Additional factors include coatings (HDG, powder coating, pre-galvanized), shipping, and installation labor.

Applications in Azerbaijan

Cable trays are widely used across multiple sectors:

- Construction and infrastructure:** Electrical wiring in commercial and residential buildings.
- Industrial facilities:** Factories, mining, automotive, and manufacturing plants.
- Agriculture and filtration systems:** Separation of solids from liquids or gases.
- Safety and security:** Wire mesh trays act as barriers to restrict access and protect cables.

Their open design allows for ventilation, heat dissipation, and easy inspection, making them suitable for environments where airflow and visibility are important.

Suppliers and Market Insights

Azerbaijan has several local manufacturers and suppliers, such as Jeetmull Jaichandlall (P) Ltd., offering a variety of sizes, shapes, and finishes tailored to industry needs. The market is competitive, with both domestic production and imports influencing pricing and availability. For bulk procurement or spot pricing, pl...
