

Brunei power distribution box switch

Overview

MNS is a low-voltage switchgear assembled in the factory using standard modules. It is suitable for AC 50/60Hz, rated operating voltage below 660V, and rated current up to 6300A in power distribution systems, used for power distribution, conversion, control, and reactive power. This list is the official General Lists of Approved Products / Manufacturers for Mechanical and Electrical Installations in Brunei Darussalam. This list is updated on a regular basis to add or remove products / manufacturers as agreed by DES Product Registration Committee. – Operating in Brunei Darussalam since 1994 with a modern production facilities spanning 20,000 square foot of floor space with more than 20 highly trained engineers. Prudent – We care about safety and always think ahead to achieve zero downtime. GCS type low-voltage withdrawable switchgear was designed and developed in 1995 by the joint design team of GCS switchgear from the Ministry of Electric Power Industry and the Ministry of Machinery Industry, entrusted to Senyuan Electric Co. It passed the appraisal of the two ministries in 1996. Widely used in power generation, construction, steel, cement, mining, petrochemical, and other power supply and distribution systems 1. Electricity sector in Brunei is regulated by the Department of Electrical Services (DES; Malay: Jabatan Perkhidmatan Elektrik). YoAhorroEnergia Data Infrastructure (YAE) delivers modular data centers, edge data centers, server rack systems, cold/hot aisle containment, EMS, smart PDU, and AC/DC distribution solutions for Africa and Europe.
