

Bulgarian Fiber Distribution Box 24 Cores

Overview

The 24 ports optical fiber cable distribution box is capable of housing 24 sc or 12 lc duplex adapters, supporting max 24 cores termination. It can accommodate two incoming cables and 24 drop cable, and we can use this box to give protection for the fiber cable in indoor. FDB-24D-1 is an excellent FTTH termination box with is designed for the FTTH optical network wiring, mainly for optical transmission terminal from end to end, fiber optic split; output function, effectively terminating, protection and management of fiber optic cable for the optic network. It's the. Leading fiber optical terminal box manufacturers & suppliers, provide a range of fiber box with different core numbers and support OEM ODM service. bgThe FDB is made of high strength materials,UV resistance,waterproof,maximum capacity up to 24cores,with perfect space design,a variety of PLC splitter can be installed,it can be used in indoor and outdoor environment,safe,reliable,cost-effective,and provide the best solutions for FTTH optical. FTTH 24 core fiber terminal box is suitable for the distribution and terminal connection for various kinds of optical fiber system, especially suitable for mini-network terminal distribution, in which the optical cables, patch cores or pigtails are connected. 24 core fiber terminal box 2-1. jpg. Materials: high grade SPCC cold rolled steel Characteristics: the wiring connection device used in connecting optical cables and optical communication installation.
