

Cable tray wall bracket price

AI Overview

Cable tray wall mount brackets typically range from \$10 to \$100 per bracket, depending on type, material, and load capacity. Price Overview Light-duty brackets for small or residential cable trays usually cost \$10–\$25 each. Medium-duty brackets, suitable for commercial installations, range from \$25–\$50 per bracket. Heavy-duty brackets designed for industrial or data center applications can cost \$50–\$100 or more, especially if made from stainless steel or galvanized steel for corrosion resistance. Factors Affecting Price Material: Stainless steel and galvanized steel are more expensive than aluminum but offer higher strength and corrosion resistance. Bracket Type: Adjustable, universal, horizontal, or vertical brackets may cost more due to flexibility and design complexity. Load Capacity: Brackets designed to support heavier cable trays or large bundles of cables are priced higher. Certifications and Standards: Brackets with CE certification, fire resistance (E90), or compliance with ISO standards may carry a premium. Quantity and Supplier: Bulk purchases often reduce the per-unit cost, while specialized suppliers may charge more for high-quality or custom brackets. Where to Buy Online retailers like Amazon, Alibaba, and RS Components offer a wide range of cable tray wall brackets with varying prices and specifications. Specialized suppliers such as Ekabel24 and Kable Kontrol provide industrial-grade brackets with certifications and detailed load ratings. When selecting a bracket, consider the weight of the cables, installation environment (indoor/outdoor), and required durability to ensure safety and compliance with building codes.
