

Can a router be used with China Unicom fiber optic internet

Overview

They may not provide a router; if so, consider buying one that can support 1000 Mbps of processing power to make the most efficient use of your wifi services. Routers should cost between RMB 100-200 and generally require a username, password, and phone number. Can you have your own modem to get internet or are you stuck to the shitty modem from Unicom or China telecom?

Modem must be used as delivered, but you can have the router/WiFi functionality switched off and use your own equipment for networking. Yea, this is the easiest way and doesn't require. In this tutorial, we'll show you how to set up a modem router from the Chinese brand Unicom. In this guide, we'll explain router compatibility, setup steps and whether upgrading your router is necessary to maximize fiber speeds.
