

China's most well-known optical cable manufacturer

AI Overview

YOFC (Yangtze Optical Fibre and Cable Joint Stock Limited Company) is China's most prominent optical cable manufacturer, recognized globally for its scale, innovation, and product quality. Overview of YOFC Founded in 1988 and headquartered in Wuhan, Hubei, YOFC has grown into a leading global supplier of optical fibers, preforms, and cables, holding a 12% share of the global market. The company specializes in ultra-low-loss fibers, high-density multi-core cables, and submarine cables, supporting advanced telecommunications networks including 5G, data centers, and long-haul transmission. YOFC's GYTA53 armored series is widely used for outdoor installations, capable of withstanding high pressure and deep burial conditions. Production and Innovation YOFC operates 13 state-of-the-art manufacturing plants across China, employing advanced automation and AI-driven quality control to achieve 99.5% defect-free rates. Its R&D center invests around USD 200 million annually, driving innovations such as quantum-safe fibers and customized loose-tube designs for FTTH deployments. The company holds over 500 patents, reflecting its strong technological leadership. Global Reach and Clients YOFC exports to over 100 countries, supplying major telecom operators like China Mobile, which accounts for roughly 30% of its domestic sales. Its products comply with international standards such as ITU-T G.652 and IEC 60794, ensuring compatibility and reliability in global networks. The company's international expansion includes partnerships and facilities to support markets in Europe, Africa, and Asia. Industry Position Across multiple rankings of China's top fiber optic cable manufacturers, YOFC consistently appears at the top due to its market visibility, production capacity, and innovation. It is widely regarded as the flagship enterprise of China's optical fiber industry, combining scal...
