

Clip-on cold connector for optical fiber

Overview

The fiber optic quick connector/cold connector is a very innovative field-terminated connector, which contains factory-installed optical fiber, pre-polished ceramic ferrule and a mechanical splicing mechanism. The wide application of fiber to the home (FTTH) has promoted the rise of fiber optic quick connector/cold connector. This product has the characteristics of small size and quick termination, and causes With low loss and high stability, it is an indispensable fiber optic connection device for fiber. The FOD5516 Clip-on Coupler is designed to inject and detect light signals in Single mode optical fiber. The most common applications are with Optical Talks Sets and injecting a test tone to trace. Extron Quick LC Fiber Optic Connectors are factory pre-polished, field-installable connectors for fast, reliable termination of Extron multimode and singlemode fiber optic cable. It is a must for fiber optic systems.
