

Cold Aisle 47U Manufacturer

Overview

In 2024, Worthington Armstrong Venture (WAVE), a joint venture between Armstrong World Industries, Inc., acquired all of the assets of Data Center Resources, LLC (DCR) related to the design and manufacture of customizable, modular aisle. The assembly of racks in “Contained cold aisle” helps to ensure that 100% of the air blown by the air conditioners in the room is used by the servers. This principle of. This network cabinet in the color black has the following dimensions: 800mm wide, 1200mm depth, 47U height. It includes a single perforated front door and perforated single door at the rear provided with swivel handles and EK-333 cylinder lock. The amount of cabling in cabinets has increased. To reduce energy costs and noise in the data center, you must isolate the hot and cold airflow through each rack and the entire room. Our high-quality, customizable solutions help optimize cooling efficiency and protect valuable equipment.
