

Customized 48-core fiber distribution box

Overview

48-port fiber distribution box for large-scale FTTH deployments. Dual-use indoor/outdoor design with IP55 protection. It integrates fiber splicing, splitting, distribution, storage and cable connection in one solid protection box. 48-port capacity serves high-density residential. KXT-B-48 Fiber Splitter Box provides a high-density wall-mounted or pole solution for next-generation networks, which aims to provide and manage fiber splitters in a limited space in a limited space. The FDB-48 is suitable for indoor or outdoor FTTX applications that support up to 48. Efficiently manage and distribute up to 48 fiber optic connections with the robust, weatherproof SJ ODB M12 fiber distribution box, ideal for telecommunications, data centers, and versatile network applications.
