

DIP4 Optocoupler Module

Overview

The PC817 Optocoupler is a 4-pin DIP (Dual Inline Package) opto-isolator IC that contains a gallium arsenide infrared LED and a silicon phototransistor. Pricing (USD) Filter the results in the table by unit price based on your quantity. A tariff of 38% may be applied if shipping to the United States. Mouser offers inventory, pricing, & datasheets for DIP-4 MOSFET Output Optocouplers. Learn more about Optocouplers! Optocouplers by Würth Elektronik Log in now to view availability and request availability forecasts. LOGIN Status Active i | Production is active. Expected lifetime: >10. mplement our 4 pin low input current product portfolio. They feature a VCEO (collector emitter voltage) of 8 dard DIP, wide lead bending Option 6, and SMD ption 7. It is widely used for electrical isolation between input and output circuits, offering protection and signal integrity in noisy or high-voltage.
