

Data Center Micro-Module Server Room Platform

Overview

The STULZ Micro DC is a server room in a rack and comprises all necessary infrastructure such as power, cooling, security, fire suppression, monitoring, and management. The unit will be integrated and tested before it leaves the STULZ factory and allows you to simply plug and. Delta InfraSuite is a new generation, highly integrated modular datacenter solution. It uses racks as the datacenter carrier and fully integrates all sub-systems including UPSs, cooling, power distribution, lightning protection, fire control (optional), wiring, airflow management, intelligent. Highly integrated and flexible installed data center infrastructure for rapid deployment and efficient operation and maintenance Inspur intelligent micro module product adopt factory prefabrication production and on-site modular installation technology for rapid deployment and flexible expansion. 9 trillion yuan in 2023, contributing 66.45% to GDP (Gross Domestic Product) growth, and has become an important engine for economic growth. As a result. Deploy technology at the edge or anywhere your data is generated with modularized, integrated racks, fully configured and ready to handle your IT needs now and for the long haul. Avoid expensive retrofits and speed your time-to-market.
