

Dimensions and parameters of AC-DC power supply for surveillance

Overview

AC Input: 100~240V 50/60Hz, DC Output: 12V 1A. The 12V1A power adapter (transformer) is good for 12V Video security camera (Wireless, Analog, AHD, IP, TVI, CVI), DVR / NVR Video Recorder, Infrared night vision lamp. This high quality AC adapter is useful for many applications. In most applications, you can use an adapter with a higher capacity. DC output mode optional (Each channel 1A): 3. Over current/short circuit/over voltage protection 4. It is therefore ideally suited as a central power supply station for video surveillance systems. Built in power-off. The Altronix ALTV1224C AC/DC Dual Output Power Supply is an essential solution for CCTV systems, providing versatile output options with both 12VDC and 24VAC.
