

Distribution Box 500A

Overview

The VIOX UKK-500A, a blue 1-in-11-out distribution block, provides maximum power distribution for large industrial applications. Rated 500-520A/690V, input 2-215mm². It incorporates two copper busbars (positive and negative) and four 125A DC circuit breakers, enabling up to 4 batteries. Secure 500A rated electrical distribution block with blue transparent cover, designed for general control panels and light machinery applications. The dimensions of the device measure 96x49x50mm. The ORNO power distribution blocks are designed to allow for expansion, with a possibility to create more complex. Distribution Terminal Block - 1-pole, 11-way, 500 A is a 500A single-pole modular distribution terminal block designed for very high-capacity power distribution in control panels. Distribution. 500A Heavy Duty: The 12V Bus Bar rated 500A, besides, this power bus bar junction block can work with MAX 48V DC & 300V AC.
