

Distribution Box XFAC

Overview

The XFAC is a highly capable wireless zone controller with loads of additional features. 110-277V, 16A Lighting rated relay, high capacity 0-10V dimming, and multiple sensor integration options make this a single component solution for an entire zone based control solution. The XFAC is. avi-on AVI-B-XFAC-16A-2CH-CL1 Zone Controller Installation Guide Installing your XPP Follow the wiring diagrams below after mounting the XPP to the junction box of the circuit or true you would like to control: Installation Notes: Power packs should be. Cleaned import of the original manual. The Fuse Box is an older type of distribution panel that uses fuses instead of circuit breakers to protect electrical circuits. Each fuse is designed to blow when the current exceeds a certain limit, thereby cutting off the power to prevent damage.
