

Distribution box cover insert type

Overview

Structural inserts are custom-shaped physical components that hold products securely in place. Common materials include corrugated cardboard, EVA foam, molded pulp, and thermoformed plastic. Their primary role is functional: shock absorption, spacing, and precise fit. The distribution box (DB box) helps safely and efficiently distribute electrical power. CommScope offers a complete line of easy-to-use access terminals, copper and fiber splice closures, patch closures and accessories to speed deployment. What are Packaging Inserts?
