

Distribution box flush-mounted

Overview

Flush-mounted solutions with white metal frame and door, designed for professional electrical panel installations. Capacity from 14 to 56 modules: Multiple sizes to fit any project. IP40 and IK07 protection: Resistant to impact, dust and moisture. They are used to integrate circuit breakers and other elements of fuse switch disconnectors in a closed environment for a safe and regulated power supply. So in every apartment building, but also in every. Fuse boxes are an important part of the house electrics, especially in modern architecture and today's Smart Home functions, which is why we offer the DISBOX-DT series, a flush-mounted distribution box that meets the highest design requirements. The offer includes system columns (for power distribution, home automation and multimedia), switchboards, distribution boards, boxes for wiring devices and junction boxes with integrated DIN rail. Removable metal frame: Easy to install and access. Doch im Gegensatz zum Aufputzverteiler wird ein Unterputz Verteilerkasten bündig ins Mauerwerk eingelassen und mit seitlichen Befestigungslaschen „unter Putz“ montiert. Mauerkasten im Lieferumfang enthalten.
