

Double protection for distribution box

Overview

The Double Door IEC Electrical Box is an essential solution for housing electrical equipment and power distribution components in industrial, commercial, and outdoor settings. Built to IEC 60529 standards, it provides optimal protection against dust, water, and mechanical damage. The distribution box prevents that cascade — it receives power from the main supply, divides it into protected branch circuits, and isolates faults before they spread. Check dimensions & specs now! EKDB10 series. The distribution box (DB box) helps safely and efficiently distribute electrical power. Today, electrical systems are essential for homes and industries. (3). □Wide range of uses□Suitable for outdoor installation, such as connecting solar energy, car charging posts, etc.
