Cable tray prices in East Africa vary widely depending on material, size, and supplier, typically ranging from \$10 to \$150 per meter for standard trays.

Pricing Factors

- Material:** Cable trays are commonly made from galvanized steel, stainless steel, aluminum, or wire mesh. Aluminum and stainless steel trays are more expensive due to corrosion resistance and durability, while galvanized steel is more affordable. Wire mesh trays are often mid-range in price.
- Size and Load Capacity:** Wider trays or those designed to carry heavier cables cost more. Standard widths range from 100mm to 600mm, and prices increase with width and thickness.
