

East Asia Optical Fiber Cable Price Trends

Overview

The import price in Eastern Asia stood at \$19,598 per ton in 2024, picking up by 2. Over the period under review, the import price, however, showed a mild downturn. The pace of growth was the most pronounced in 2018 an increase of 13%. In 2024, the East Asian optical fiber cables market increased by X% to \$X, rising for the fourth year in a row after six years of decline. From 2020 through 2024, China accounted for 45% of regional consumption and approximately 69% of regional production. CRU's unique services are the product of both our in-depth understanding of. Based on our observations and market communication with upstream suppliers, the single-mode fiber market in China has experienced an unprecedented price surge in the first two months of 2026. This article summarizes the latest fiber optic price data as of June, 2026, along with the recent timeline. In the latest Optical Fibre and Cable Market Outlook, CRU examines the recent acceleration in fibre pricing and the tightening supply conditions emerging in early 2026. After an extended period of subdued pricing in several regions, optical fibre prices are rising sharply alongside sustained demand. The Asia Pacific fiber optics market size was estimated at USD 3.
