

Eastern European Electrical Cable Trays

Overview

EAE cable trays are produced on automatic production lines through the 'ROLL FORMING' method. The standard tray length is 3m. It provides flexible and modular solutions with illumination and socket (Mains and UPS) circuits for small power distribution in offices and plants. European standards for cable tray systems are among the most stringent worldwide, focusing on durability, environmental compliance, and ease of installation. (Read the. These are cable management systems composed of trays, mounting support systems, direction changing parts, connection parts and fittings with the purpose of carrying and fixing cables safely in the electrical installations. Founded in 2006 as a subsidiary of Çemesan Group, which has been operating in the steel industry for nearly 40 years, Eurotray is an established.
