

# Estonian fiber optic cable supplier

## AI Overview

Key Estonian suppliers of fiber optic cables include Hexatronic Tallinn, A-Kaabel, and Astrec Baltic, offering manufacturing, installation, and distribution services. Major Suppliers and Manufacturers Hexatronic Tallinn operates the largest fiber optic termination facility in the Baltic and Scandinavia, producing high-quality fiber optic products for telecom operators, military, and industrial clients. Their Tallinn facility handles assembly, quality control, and distribution across Europe, and they are ISO 9001, 14001, and 45001 certified. A-Kaabel specializes in the installation of fiber optic cables, providing services such as laying underground and overhead cables, connecting and testing networks, and maintaining data centers. They offer up to 10 years warranty on installation and focus on high-speed data networks and low-current systems. Astrec Baltic supplies fiber optic and telecommunication network infrastructure components, including multifiber cables, hybrid cables, and ribbon cables. They emphasize economically efficient solutions and training for installers, catering to both industrial and scientific applications. Other notable companies include ETK Kablo, part of ETK Group, which manufactures fiber optic and low-current cables, and DNS, an Estonian brand of structured cabling systems for networking and telecom applications. Distributors For purchasing fiber optic cables from international manufacturers, Mouser Electronics Estonia offers a wide selection of fiber optic cables from brands like Broadcom and Banner Engineering, providing datasheets, pricing, and inventory for various applications. Summary Estonia has a robust fiber optic industry with companies covering manufacturing, installation, and distribution. Hexatronic Tallinn is ideal for high-volume production and termination, A-Kaabel for installation and network services, and Astrec Baltic for specialized components and training. For sourcing international products, distributors like Mouser Electronics provide access to a broad range of fiber optic cables.
