

Fiber Optic 96-core Terminal Box

LoRawan outdoor base station

Overview

The SJ-ODB-M18-A 96 core fiber optic termination box offers secure, durable, and efficient management and termination of up to 96 fiber cores, ideal for telecommunications, data centers, and industrial applications. Anyone who's ever done low-voltage electrical work, installed gigabit broadband, or maintained a corporate server room knows this: a splice closure is the "heartbeat" of the entire fiber optic link. Not stable?

the attenuation is soaring! confused by the disk?

splicing is repeated and reworked! The Outdoor Fiber Optic Termination Box 96 Core is a high-capacity wall-mounted enclosure designed for fiber splicing, termination, storage, and distribution in FTTB and FTTH network applications. Constructed from high-quality engineering plastic, it offers excellent resistance to dust, moisture. Versatile units for separating, storing, splicing, and connecting optical fibers, supporting diverse cable cross-connection needs in fiber networks. ODF unit box can be individually equipped with fiber optic distribution frame, but also with the digital wiring.
