

Fiber Optic Cable gyxtw Aerial Optical Cable

Overview

GYXTW is a single loose tube steel tape armored fiber optic cable designed for outdoor use. It is ideal for aerial or ducted installations, providing reliable communication in metropolitan networks, access networks, and inter-office connections. Direct buried cable can be buried directly ground in a trench or using a vibratory with great water-blocking and moisture-proof performance, it also has good crushing performance. With metallic central strength offers ease of location while dielectric grounding issues. GL supply GYXTW cable from 2. Central Loose Tube Optical Fiber Cable GYFXTW/GYXTW (2-144 cores) GYXTW is an outdoor use optical fiber cable suitable for duct and aerial applications. The primary coating optical fibers are protected by central loose tube, optical fibers are. GYXTW is a cable with tube central located, two parallel steel wires are placed at the two sides of the steel tape for outdoor aerial application. it is available from 2-24fiber for both singlemode and multimode. Features: -Fiber counts 2-24C -Low attenuation and dispersion, special control of.
