

Fiber Optic Electronic Distribution Frame

24-Port LC Duplex

Overview

1U Economic Optical Distribution Frame for 24 SC ports or double LC, with 2 joints fasteners and accessories to organize the fibers. 2 mm Thickness,   nvironment temperature: -40°C ~PG13. cable tie Product information "19" fully loaded optical distribution frame (ODF) 24 x LC-Duplex OS2" from LogiLink Professional LogiLink's fully assembled fiber optic patch panels are designed to fit on a standard 19" rack and provide optimal protection for your fiber. An optical distribution frame (ODF) is a frame used to provide cable interconnections between communication facilities, which can integrate fibre splicing, fibre termination, fibre optic adapters & connectors and cable connections together in a single unit. Protect and organize your joints and fiber optic connections with the accessories included in. This type of ODF is design for large splice tray, excellent armor plate, and has good protection of pigtails. This series of units are suitable for 19" standard frame, and widely used in LAN and fiber optic access networks.
