

# Finished Concealed Distribution Box

## Overview

Units like the Mitsubishi SEZ, Fujitsu ARXG slim-duct series, or Daikin FDMQ concealed ceiling cassette are purpose-built for this application, unlike standard wall-mount or ceiling cassette units that discharge into open space with zero static pressure tolerance. Engineered for modern electrical and solar installations, the Concealed Distribution Box 10×14 provides a reliable, sleek solution for safe circuit management. Ideal for embedding into walls, this flush-mount DB blends perfectly with interiors while securely housing MCBs, RCDs, and related. This metal box is a functional requirement for safety and power distribution, yet its appearance rarely complements the surrounding decor. Successfully integrating the panel involves balancing the desire for a seamless look with strict safety regulations, ensuring the concealment method allows for. Adding duct distribution to a mini-split air handler isn't as simple as bolting on a plenum box—you need a factory-designated slim-duct or concealed-duct indoor unit that's actually rated for external static pressure (ESP). They keep connections safe from dust, moisture, accidental contact, and mechanical damage—ensuring system reliability and compliance with safety standards. These.
