

How much does a 1440 optical fiber distribution box cost

AI Overview

The price of a 1440-core optical fiber distribution box typically varies based on supplier, customization, and order quantity, generally ranging from several hundred to over a thousand USD per unit.

Pricing Overview High-capacity 1440-core fiber optic distribution frames are specialized equipment used for FTTH, data centers, and large LAN applications. Suppliers such as KOCENT OPTEC LIMITED and other manufacturers offer these units with steel construction, low insertion loss, and flexible configuration options for indoor or outdoor installation. Prices are not fixed and are usually negotiated based on order volume, customization, and shipping requirements.

Factors Affecting Cost

- Material and Build Quality:** Steel or aluminum alloy construction, powder coating, and precision fabrication can influence the price.
- Customization:** Options for SC, FC, LC, or ST adapters, drawer-style panels, fiber splitters, and OEM branding can increase cost.
- Quantity:** Bulk orders often reduce the per-unit price, while single units may be more expensive.
- Shipping and Delivery:** International shipping methods (air freight, sea freight, express courier) and destination ports affect the final cost.
- Additional Services:** Some suppliers offer ODM/OEM services, pre-installed adapters, or sample units for testing, which may add to the price.

Approximate Price Range While exact prices are typically provided upon request, similar high-capacity 1440-core ODF units are generally priced from \$500 to \$1,500 per unit, depending on the specifications and supplier. For precise pricing, contacting the supplier with your quantity, configuration, and shipping details is recommended.

Recommendations Request quotes from multiple suppliers to compare pricing and services. Specify adapter types, panel configuration, and installation requirements to get accurate cost estimates. Consider shipping and customs fees if...

Durable FTTH Terminal Box | Fiber Termination Enclosure for Safe ...

FTTH Termination Box available for the distribution and terminal connection for various kinds of optical fiber system, Some are used for indoor cabling and others are designed to install on outdoor pole or

ODF ODF1440 Optical Distribution Frame 1440 Core 120 Tray Chassis

2. Our Quotation includes goods cost, shipping cost and trading charges. 3. The buyers should be responsible for the trading charges. 4. The prices we quoted are correct at this time, but maybe

The Technical Specifications for Fiber Distribution Boxes

The fiber distribution box, a crucial component in optical fiber networks, serves a dual purpose of managing and protecting optical fibers while

144 Cores Fiber Distribution Box: Durable & Versatile Solution

The SJ-ODB-M18-B metal fiber optic termination box is a durable, compact solution for managing and distributing up to 144 fiber optic cores, ideal for outdoor use in large-scale network installations.

144 Fiber Distribution Box

Higher cost compared to indoor models due to enhanced protection features. Requires proper grounding in lightning-prone areas. Best for: Telecom cabinets, street-side installations, rural

Ultimate Guide to Fiber Optic Distribution Box: Types

Fiber optic technology has revolutionized the telecommunications industry, enabling faster and more reliable data transmission. One essential

Fiber Optic Distribution Box | Fibermint

Fiber distribution boxes for FTTH termination. Splice boxes & distribution units. Wall/floor mount, 4-144 cores. OEM available. Get pricing.

FTTH distribution boxes 4, 8, 16, 24, 36 or 48 ports

Premium-Line FTTH distribution box is aim designed for multi-purpose applications in FTTH projects. Read more here!

Fiber Optic Distribution Box

Looking for a fiber distribution box that's high-quality, affordable, and built to last? Look no further than MellaxTel. We're experts at keeping costs down, so you get

Fiber Distribution & Termination Boxes — 80 Models

Our FTTH fiber boxes provide complete solutions for high-performance fiber optic networks, including fiber distribution boxes (FDB), fiber termination boxes (FTB),

144 Cores Fiber Distribution Box: Durable & Versatile

The SJ-ODB-M18-B metal 144 cores fiber distribution box is engineered to provide a robust solution for managing fiber optic networks with a capacity of up to 144

1440 Cores Indoor Optical Fiber Distribution Frame

We supply a series of optical distribution frames from 12 fiber counts type to 144 fiber counts type. Fiber optic ODF has various individual distribution panels inside the closure, they are flexible to use like

144 Ports Fiber Optic Distribution Frame Optical Patch Panel

It is made of 19" cold-roll steel box, with plastic splice tray inside, suitable for pigtail, ribbon and bunch cable distribution. And it has metal sliding fittings with self-locking functions prevent

OPTICAL FIBER DISTRIBUTION FRAME

NORDEN Fibre optic distribution frame is a high-capacity, high-density fibre distribution frame, suitable for the composition and distribution of fibres in optical access network to achieve the fibre optic lines

144 Cores ODF Unit with Sc/APC Adapter & Pigtails

ODF-IW24B consists of cold-roll steel box, splicing unit, distribution unit and panel. Its special design ensures the excess fiber cords and pigtails in good order, no

Fhd 1u 144 Core Optical Fiber Distribution Box

PHXFIBER provides fiber optic joint enclosures of high quality. The fiber optic joint enclosure box price is reasonable and competitive. We have experience in producing this joint enclosure box. You will not

How to Choose the Right Fiber Distribution Box for

A fiber distribution box (FDB) is a passive enclosure that provides secure splicing, termination, and distribution of optical fibers. It typically contains

Fiber Optic Distribution Boxes (FDB) & ODF Supplier

OTRANS is a leading fiber optic distribution box manufacturer. We offer a wide range of 1-24 core FDB boxes and ODF cabinets for indoor/outdoor FTTX

Optical Fiber Distribution Box | Wall Mount Fiber Solution

Optical fiber distribution box offers secure, organized fiber management with wall mount design. Ideal for FTTH, LAN, and telecom network setups.

Fiber Optic Distribution Box

ZMS fiber optic distribution box is one of our main accessories products, with high-quality sealing and stability.

Optical Distribution Frames (ODF) Supplier | Fiberinthebox

Buy high quality Optical Distribution Frames (ODF) with competitive price and worldwide delivery, we offer optical distribution frame in different size, such as 1U 12 ports, 1U 24 ports, 2U 36ports, 3U 48

Optical Distribution Box | Fiber distribution box

Fiber distribution box is made of high-strength engineering plastics, anti-UV, anti-aging ability. The distribution box is sealed adopts buckle + two screw type structural seals, and the left and right

How to Use Fiber Distribution Box: A Comprehensive

A fiber distribution box (FDB) functions as a central hub in fiber optic networks where the main cable is split into multiple individual fibers for

1440-Core 19" Fiber Optic Distribution Frame | Steel ODF

High-capacity 19" fiber optic distribution frame with 1440 cores, steel construction, and low insertion loss (0.15dB). Ideal for FTTH, data centers, and LAN applications.

144 Port ODF

Discover our 144 port optical distribution frame ODF, suitable for bulk orders starting at \$11. Suitable for 12-576 core SC/LC/FC/ST connectors, perfect for wholesale buyers and distributors. Available in
