

How much does a ladder-type cable tray cost in Madagascar

AI Overview

Ladder-type cable trays in Madagascar typically cost between \$5 and \$25 per meter, depending on material, size, and supplier. Price Overview Ladder-type cable trays are commonly made from galvanized steel, stainless steel, aluminum, or fiberglass (FRP). The cost varies significantly based on material and quality: Galvanized steel: \$5–\$15 per meter, widely used for general installations due to durability and affordability. Stainless steel: \$15–\$25 per meter, ideal for high-corrosion environments or industrial applications. Aluminum: \$6–\$20 per meter, lightweight and corrosion-resistant, suitable for outdoor or coastal installations. Fiberglass (FRP): \$10–\$50 per meter, used in aggressive environments where chemical resistance is required. Local Suppliers in Madagascar Several suppliers in Madagascar provide ladder-type cable trays, including Brilltech Engineers and other local manufacturers. They offer custom sizes, fittings, and installation support, ensuring compliance with safety standards. Prices may vary depending on order quantity, tray width, and additional coatings like hot-dip galvanization. Additional Cost Factors Tray length and width: Standard lengths are often 2.4 meters; wider trays cost more per meter. Fittings and accessories: Elbows, tees, and supports are priced per piece and can add to the total cost. Installation: Labor and mounting hardware can increase the overall project cost, typically adding \$2–\$10 per meter depending on complexity. Bulk orders: Ordering in large quantities can reduce the per-meter cost by 20–40%. Practical Advice For accurate budgeting, it is recommended to contact local suppliers directly to get a custom quote based on your project requirements, material choice, and installation conditions. This ensures compliance with local standards and avoids unexpected costs.
