

How much does a residential electrical distribution box cost in Botswana

AI Overview

Residential electrical distribution boxes in Botswana typically range from BWP 500 to BWP 3,500 depending on type, capacity, and features.

Typical Price Ranges

Small pre-wired ready boards (e.g., Africa Ready Board with USB sockets, 3 outlets, single-phase supply) are low-cost options, generally starting around BWP 500–800 for basic residential use.

Standard MCB distribution boxes (like the MOLLUM 2 Way Circuit Breaker box with DIN rail, IP65 waterproof rating) are more robust and suitable for permanent installations, costing approximately BWP 1,200–2,500 depending on the number of ways (2-way, 12-way, etc.) and material quality.

Custom or larger switchboards manufactured locally by companies such as VAL DOR Electrical Switchboards can range from BWP 2,500 up to BWP 3,500 or more, especially for wall-mounted or floor-standing panels with higher capacity and additional features like feeder pillars or control panels.

Factors Affecting Cost

Capacity: More ways (slots for circuit breakers) increase the price.

Material and Protection: Boxes with IP65/IP66 waterproof ratings or impact-resistant covers cost more.

Pre-wired vs. Empty: Pre-wired ready boards are convenient but slightly more expensive than empty enclosures.

Installation: Professional installation may add to the total cost, especially for larger or outdoor boxes.

Additional Features: Padlocks, transparent covers, USB sockets, or integrated lighting can increase the price.

Recommendations

For basic residential use, a small pre-wired ready board is cost-effective and easy to install. For permanent home installations, a standard MCB distribution box with proper waterproofing and DIN rail is recommended. For custom or high-capacity needs, contact local manufacturers like VAL DOR Electrical Switchboards in Gaborone for a quote tailored to your project.

By considering these factors, homeowners in Botswana...
