

How much does a temporary power distribution box cost in Mozambique

AI Overview

A temporary power distribution box in Mozambique typically costs around US\$1,450 per unit, with prices varying based on specifications and customization. Price Overview The average global price for a temporary power distribution box is approximately US\$1,450 per unit, which serves as a useful benchmark for Mozambique, though local shipping, import duties, and customization may affect the final cost. These boxes are portable electrical units designed for temporary power supply at construction sites, events, or industrial maintenance. Local Availability and Customization Companies supplying to Mozambique, such as those offering the Syntax MP24 series, provide three-phase 32 Amp portable boxes with customizable incoming plugs, outgoing sockets, and circuit breakers. The boxes are designed for durability, weather resistance (IP67), and safety, including MCB, RCD, RCCB, and RCBO protection. Customization and pre-wiring services may increase the price slightly depending on the specifications. Rental Options For short-term needs, rental services are available through providers like United Rentals, offering temporary power distribution boxes, spider panels, and transfer switches. Rental costs depend on duration, amperage, and equipment type, which can be more cost-effective for temporary projects. Factors Affecting Cost Amperage and phase type (single-phase vs three-phase) Number of outlets and breakers Material and weatherproofing (polycarbonate enclosures are more expensive) Shipping and import duties to Mozambique Customization and pre-wiring services In summary, for a standard temporary power distribution box in Mozambique, expect a purchase price around US\$1,450, with potential adjustments for local logistics and specific requirements. Renting may offer a flexible alternative for short-term projects.
