

How much does it cost to process mesh cable trays in Dubai

AI Overview

The cost of wire mesh cable trays in Dubai varies widely depending on material, size, customization, and finish, with standard trays often available ex-stock and custom trays priced per project.

Pricing Overview Wire mesh cable trays in Dubai are generally priced based on material type, dimensions, and customization. Standard trays are often ready for dispatch within 24-72 hours, while custom fabrication (including bends, risers, reducers, and powder-coated finishes) typically takes 5-10 working days and is priced according to volume and specifications. Suppliers like Metar, West Port, and Hutaib provide flexible solutions for commercial, industrial, and data infrastructure projects.

Factors Affecting Cost

- Material:**
 - Pre-galvanized steel: Common for indoor installations, moderate cost.
 - Hot-dip galvanized (HDG) steel: Recommended for coastal or high-humidity areas, higher cost.
 - Stainless steel 316: High corrosion resistance, premium pricing.
 - Marine-grade aluminum: Lightweight and corrosion-resistant, suitable for rooftop or outdoor installations.
- Tray Size and Load Capacity:** Width, height, and rung spacing affect material usage and cost. Heavier load requirements or longer spans increase pricing.
- Customization:** Powder coating for color-coding or extra corrosion protection. Custom bends, risers, reducers, and covers.
- Accessories** like clamps, splice plates, and threaded-rod supports.
- Volume and Lead Time:** Bulk orders may receive contractor pricing. Standard stock sizes are cheaper and faster to deliver; custom orders are more expensive due to fabrication.

Typical Cost Range While exact prices vary by supplier and project, standard wire mesh trays in Dubai can range from approximately AED 50 to AED 150 per meter for basic pre-galvanized or powder-coated trays. Custom or heavy-duty trays with stainless steel or HDG finishes may cost AED 200-400 per meter or more, depending on...
