

Jamaican Fiber Optic Cable Products

AI Overview

Jamaica's fiber optic infrastructure is supported by major providers like FLOW and Digicel, with ongoing subsea cable projects enhancing connectivity and reducing costs. Key Providers and Products FLOW (formerly Cable & Wireless Jamaica) has been a pioneer in deploying fiber optic networks across Jamaica, offering high-speed internet services to homes and businesses, and expanding coverage through continuous network upgrades. Digicel, entering the market in 2001, has invested heavily in fiber optics and operates DeepBlue, a wholesale capacity provider delivering international connectivity across the Caribbean and Guyanas, including secure, high-speed subsea links. These providers offer fiber-to-the-home (FTTH), enterprise solutions, and wholesale bandwidth services. Subsea Cable Projects Jamaica is actively expanding its international connectivity through subsea fiber optic cables. The government signed a letter of intent with Trans Americas Fiber System (TAM-1) to connect Jamaica to a new subsea cable system, providing up to 20 Tbps of international bandwidth. This project aims to reduce international bandwidth costs by up to 99% for local operators, improve redundancy, and support the National Broadband Project. The TAM-1 branch is expected to be operational by the third quarter of 2027. Additionally, the government's investment in subsea cables, costing between US\$45-55 million, is intended to make high-capacity fiber more accessible, lower connectivity costs, and stimulate economic growth. Regional Connectivity DeepBlue One and Southern Caribbean Fiber (SCF) provide regional subsea connectivity, linking Jamaica indirectly to other Caribbean islands, South America, and the United States. These networks support high-capacity, resilient, and secure connections, enabling applications such as disaster early warning systems, real-time data analytics, and high-speed internet for businesses and educational institutions. Government Initiatives The National Broadband Initiative focuses on exp...
