

L9925b Fiber Optic Cold Connector

Overview

□Feature□Ceramic core, Insertion Loss: <0 . L925B fiber cold connector is also called fiber optic quick connector, which is used for fiber optic docking fiber or fiber optic docking pigtail. This is equivalent to making a connector. (Fiber optic docking pigtail refers to the fiber core and the pigtail fiber core but not the former. □Material□Made of high performance materials. Help others learn more about this product by uploading a video! Would you like to tell us about a lower price?

Metal V-groove design, optical fiber butt for high technical indicators are excellent. The core structure The box structure design, good sealing performance, suitable liquid is not easy to lose, weather resistance is strong. It is compatible with a wide range of optical fiber types, ensuring flexibility and versatility in network installations. "cold" in place of, the whole process can be finished within 2 min, succeeded by cold technology, its connection effect can weld.
