

Lithuanian Optical Cable Embedded Pipe Manufacturer

AI Overview

Key Lithuanian manufacturers for optical cable embedded pipes include Skaidula, Kabelita, and Elektrokomplektas, offering fiber optic solutions and HDPE/PVC pipes. Skaidula Founded in 1989, Skaidula specializes in fiber optic technologies and telecommunications equipment. The company produces high-quality fiber optic connectors and cables, and has been an authorized representative of FUJIKURA, a leading optical connector manufacturer. Skaidula provides comprehensive solutions for voice, video, and data networks, making it a major player in Lithuania's fiber optic sector. Kabelita Kabelita, established in 1991, manufactures HDPE technical pipes suitable for embedding optical cables, alongside electricity cables and related materials. The company supplies both domestic and international markets and is open to cooperation with other HDPE and PVC pipe producers, making it relevant for optical cable infrastructure projects. Elektrokomplektas Elektrokomplektas UAB, founded in 1993, focuses on wholesale and supply of cables, wires, and installation materials. While primarily an electrical supplier, the company partners with major cable manufacturers like Prysmian Group and Tele-Fonika Kable, and provides pipes and accessories for cable deployment, supporting large-scale fiber optic network projects in Lithuania. Additional Notes These companies collectively cover the production, supply, and installation of optical cables and embedded pipes. Skaidula emphasizes high-tech fiber optic solutions, Kabelita specializes in HDPE pipes for cable embedding, and Elektrokomplektas offers a broad range of cables and installation materials for telecommunication infrastructure. Collaborating with these manufacturers can facilitate deployment of fiber optic networks in Lithuania and neighboring regions.
