M3 Libyan Fiber Optic Sensor Manufacturer

AI Overview

There is no known Libyan manufacturer of M3 series fiber optic sensors; international suppliers like GTRIC and di-soric are the primary sources, while Libyan companies such as Afaq ICT provide installation and network services.International M3 Fiber Optic Sensor SuppliersGTRIC M3 Series: Offers fiber optic amplifier sensors with stainless steel fiber heads, IP67 protection, adjustable fiber lengths up to 3 meters, and sensing distances of 0–120 mm. These sensors are suitable for precise industrial automation and come with customizable options and a 1-year warranty. GTRIC primarily exports to Canada, the United States, and Colombia, but international shipping may be arranged .di-soric KLT-M3-T2-0.5: Provides plastic fiber optic sensors and stainless steel sensor probes with bend protection, designed for detecting small parts and precise range monitoring in industrial applications .Libyan Fiber Optic Service ProvidersAfaq ICT: While not a manufacturer, Afaq ICT offers comprehensive fiber optic services in Libya, including network design, installation, maintenance, and testing. They have experienced engineers capable of integrating fiber optic sensors into local IT and industrial systems .RecommendationsFor M3 sensor procurement: Contact international suppliers like GTRIC or di-soric for direct purchase and shipping to Libya. Ensure to inquire about customs, tariffs, and shipping logistics.For local integration and support: Partner with Libyan companies such as Afaq ICT for installation, testing, and maintenance of fiber optic networks and sensors.Customization needs: Many international suppliers offer design and sample customization, which can be coordinated remotely before shipping. In summary, while Libya does not currently have a known manufacturer of M3 fiber optic sensors, international suppliers provide high-quality options, and local companies can suppo...
