

Method for bending cable tray bends

Overview

This is a step by set guide on how to make (fabricate) a 90 degree bend in metal cable tray and use a cable tray bending machine to make the same bend. Videos are training aids for City and Guilds (C and G) and EAL courses Level 1, 2, 3 plus AM2, AM2S and AM2E. The length of the bottom side (bottom diagonal) after bending the cable tray should be equal to the width of the cable. The bends, tees, crosses, risers and reducers of wire mesh cable tray can be easily and quickly made live at the project by using a bolt cutter. Since the jaws of the bolt cutter drags a layer of zinc across the cut end and forms a protective layer. When a wire cable tray is cut, the fact that a.
