

Mexico Metal Ladder Cable Tray Price Quote

AI Overview

Metal ladder cable trays in Mexico typically range from \$50 to \$200 USD per 2.4-meter section, depending on material, coating, and manufacturer. Overview Metal ladder cable trays are widely used in industrial, commercial, and infrastructure projects to support and organize electrical, control, and data cables. In Mexico, these trays are available in steel, stainless steel, and hot-dip galvanized steel, with features such as corrosion-resistant coatings, pre-punched holes for easy installation, and customizable sizes. Pricing Factors Material Type: Hot-dip galvanized steel: Common for standard industrial applications, offering corrosion resistance and durability. Prices for a standard 2.4-meter section typically start around \$50–\$80 USD. Stainless steel: Used in high-load or harsh environments, such as chemical plants or marine applications. These trays are more expensive, ranging from \$120–\$200 USD per section. Mild steel with protective coatings: Often slightly cheaper than stainless steel but still corrosion-resistant, generally \$60–\$100 USD per section. Tray Dimensions: Width and height affect the price. Wider or taller trays designed to carry heavier cable loads cost more. Accessories and Fittings: Horizontal and vertical fittings, splices, and covers are priced per piece and can add \$10–\$50 USD per unit depending on size and material. Manufacturer and Supplier: Local Mexican manufacturers like SIESA® and Brilltech Engineers offer competitive pricing and may provide bulk discounts or custom solutions. Additional Considerations Installation Efficiency: Pre-punched holes and lightweight designs reduce labor costs. Durability: UV protection, fire resistance, and corrosion-resistant coatings increase long-term value. Customization: Some suppliers offer cut-to-size trays or modular systems to accommodate future cable expansions. For precise pricing, it is recommended to c...
