

Middle East Industrial Distribution Box Models

AI Overview

Industrial distribution boxes in the Middle East are designed for durability, high IP ratings, and modular configurations, with leading models from manufacturers like Kesher Automation, Procom, and Vililong. Key Models and Manufacturers

Kesher Automation offers industrial distribution boxes tailored for factories, manufacturing plants, water treatment facilities, and large infrastructure projects. These boxes are made from durable materials, equipped with MCBs, fuses, and isolators, and are designed to withstand dust, heat, and moisture. They meet international safety standards and can be customized for load management and energy efficiency.

Procom Middle East provides a range of power distribution boxes with fast delivery and quality guarantees, suitable for industrial and commercial applications. Vililong manufactures wall-mounted and stainless steel electrical enclosures engineered for Middle Eastern conditions. Their models are IP65-rated, modular, and compatible with standard cabinets like Rittal PS4000 and TS8. Features include pre-cut holes for cable entry, ventilation, filter and fan options, and optional air conditioning for high-temperature environments.

Al Safeenah UAE produces distribution boxes in carbon steel, stainless steel, or thermoplastic, with IP65/IP66 ratings. Their modular design supports DIN-rail mounting for MCBs, RCDs, and surge protectors, making them suitable for construction sites, industrial plants, telecommunications, commercial buildings, and renewable energy systems.

Features to Consider

- Material: Carbon steel, stainless steel, or thermoplastic for corrosion resistance and mechanical strength.
- IP Rating: IP65/IP66 for protection against dust and water ingress.
- Modularity: DIN-rail mounting for easy installation of breakers and protective devices.
- Environmental Adaptation: Air-conditioned enclosures for extreme heat, du...
