

# Monaco Waterproof Electrical Distribution Box

## At Overview

Waterproof electrical distribution boxes in Monaco are available in plastic or metal enclosures with IP65–IP68 ratings, including compact AT series, spacious HT series, and multi-layer EKDB10 models for industrial, commercial, and residential use.

**Key Types and Features**

- 1. AT Series (Compact Plastic Boxes)** Designed for tight spaces and simple cabling needs. Lightweight, corrosion-resistant plastic housing. IP65–IP68 rated for protection against water, dust, and UV exposure. Suitable for small residential or commercial outdoor installations.
- 2. HT Series (Spacious Plastic Boxes)** Offers more internal room for cleaner wiring and additional terminals. Supports small DIN rail configurations for modular components. UV-stabilized housings for sun-exposed environments. Ideal for medium-scale commercial or industrial applications.
- 3. EKDB10 Series (Multi-Layer Plastic Boxes)** Made of durable PC engineering plastics with high mechanical strength. Available in 4–39 ways, with single, double, or triple layers. Meets IEC standards (IEC60529, IEC62262, IEC60695-2-10) for reliable protection. Suitable for industrial, commercial, and photovoltaic systems.
- 4. Industrial-Grade Outdoor Boxes** Heavy-duty stainless steel latches and high-grade polyurethane gaskets ensure long-term sealing. Internal mounting plates made of galvanized steel or reinforced fiberglass. Adjustable depth grids and molded mounting pillars for secure installation of circuit breakers, DIN rails, and terminal blocks. Designed for harsh outdoor conditions, including moisture, dust, and mechanical impacts.
- 5. Material-Based Options**  
**Plastic Boxes:** Lightweight, corrosion-resistant, easy to handle, suitable for residential and light commercial use.  
**Metal Boxes:** Higher mechanical strength and impact resistance, preferred for industrial or high-demand environments.

**Considerations for Monaco Installations** Ensure IP65 or higher for outdoor exposure...
