

Multi-port panel with fiber optic socket

Overview

Engineered for seamless integration between indoor fiber optic cables and pigtails, this socket panel is compatible with SC, LC, and FC connectors. The 2 Ports Fiber Optic Socket Panel is a premium-quality solution designed for FTTH (Fiber to the Home) splicing and termination. It's typically installed on walls to provide a clean endpoint for incoming fiber drop. This 2 port fiber termination box can connect 2 optical fiber to the passive-optical interface in the subscriber's living area or office. It is ideal for installers to connect optical fibers to the end-user's home using fiber. Global Recycled Standard (GRS) certified products contain recycled content that has been independently verified at each stage of the supply chain, from the source to the final product and meet social, environmental, and chemical requirements. The purchase of Global Recycled Standard (GRS) certified.
