

New Zealand Melt Fiber Tray

AI Overview

In New Zealand, melt fiber trays are available as sustainable molded fiber packaging for food or as fiber optic splice trays for telecommunications applications. Molded Fiber Packaging Trays

Molded fiber trays are widely used in New Zealand for eggs, fruit, and other fresh produce. These trays are made from recycled paper or virgin pulp, making them environmentally friendly, recyclable, and safe for food contact. Companies like Huhtamaki Fiber Packaging in Auckland produce egg cartons, fruit trays, cup carriers, and wine bottle separators, focusing on durability and sustainability while supporting distribution and marketing needs. Similarly, Hawk Group offers fruit trays designed to protect produce during transport, evenly distribute pallet weight, and maintain stability, while also providing logistics and packhouse support. Oji Fibre Solutions (OjiFS) is another major New Zealand manufacturer, producing fiber-based packaging from sustainably sourced pulp and contributing to the circular bioeconomy.

Key Features of Molded Fiber Trays

- Made from recycled paper or virgin pulp
- Strong and stackable for safe transport
- Customizable for different produce types
- Environmentally sustainable, supporting circular economy goals

Fiber Optic Splice Trays

In telecommunications, fiber optic splice trays are used to store, protect, and organize optical fibers. These trays are typically made from lightweight ABS plastic, are RoHS compliant, and allow fibers to be melt-spliced or connected to pigtails within the tray. They are stackable and can be mounted inside fiber enclosures, providing a secure location for splicing and managing fiber connections.

Key Features of Fiber Optic Splice Trays

- Lightweight and stackable for efficient enclosure use
- Protects optical fibers during splicing and storage
- Easy to install and remove, supporting maintenance and upgrades
- Supports direct fusion splicing of fiber cables

Choosing the Right Tray

For food packaging, select molded fiber trays from suppliers like Huhtamaki, Hawk, or OjiFS, considering the ty...
