

Norwegian Connection Box 24 Cores

Overview

The 24 ports optical fiber cable distribution box is capable of housing 24 sc or 12 lc duplex adapters, supporting max 24 cores termination. It can accommodate two incoming cables and 24 drop cable, and we can use this box to give protection for the fiber cable in indoor and outdoor. Junction boxes are a crucial part of any electrical installation, designed to protect and organize electrical connections. The junction boxes are manufactured in durable. The box body is made of reinforced plastic, high strength, resistance, sealed and APPLICATION: Flame retardant and waterproof, prevent vibration, shock, cable stretching, twisting, etc. this fiber optic splice enclosure is suitable for overhead, duct, direct burial and branch connection of various. The 24 port fiber optic distribution box provides a protected termination point for feeder cable to connect with drop cable in FTTH and FTTx communication networks. SCOPE OF APPLICATION -- Suitable for overhead, pipeline, direct burial and branch.
