

Norwegian Mesh Galvanized Cable Tray Manufacturer

AI Overview

Oglaend System and Meka are leading Norwegian manufacturers of galvanized and mesh cable trays, offering high-quality solutions for industrial and offshore applications. Oglaend System Founded in 1977 and based in Kleppe, Norway, Oglaend System is a major producer of multidiscipline support systems, including galvanized steel cable trays, wire mesh trays, and cable ladders. The company serves industries such as oil & gas, shipbuilding, wind energy, infrastructure, and marine farming. Their products are available in stainless steel, galvanized steel, aluminum, and fiberglass composites, suitable for both onshore and offshore projects. Oglaend System's MultiGrid® installation concept reduces project costs by optimizing weight, installation time, and coordination between disciplines. They also provide a wide range of brackets, fittings, and accessories for flexible and secure installations.

Meka Meka is a Nordic manufacturer specializing in high-quality cable support systems, including galvanized steel and wire mesh trays. With over 40 years of experience, Meka offers solutions for high loading capacities and wider spans, suitable for industries like pulp and paper, wood, food, and outdoor installations. Their products include cable ladders, trays, lighting tracks, and aluminum-frame systems, designed to withstand dust, dirt, and humidity.

Summary For Norwegian projects requiring mesh or galvanized cable trays, both Oglaend System and Meka provide reliable, durable, and industry-tested solutions. Oglaend System is particularly strong in offshore and heavy industrial applications, while Meka offers versatile solutions for Nordic industrial environments. Both companies provide comprehensive support, including accessories, fittings, and installation guidance, ensuring efficient and safe cable management.
