

One-light module

AI Overview

A One-Light module typically refers to a high-quality LED lighting unit or a lighting control module designed for flexible, energy-efficient illumination. ONE Light LED Products ONE Light is a European lighting brand offering modern, energy-efficient LED solutions for residential, commercial, and industrial spaces (). Their product range includes: LED downlights and track spots for precise indoor lighting LED strips and profiles for accent or decorative lighting Outdoor lighting for gardens, pathways, and building exteriors Industrial and commercial fixtures for warehouses, offices, and retail spaces ONE Light emphasizes cutting-edge LED technology, long-lasting materials, and energy savings. European businesses can purchase products with VAT at 0%, making them cost-effective for large-scale installations (). Hangzhou Yideng Lighting (ONELIGHT) In China, Hangzhou Yideng Lighting Co., Ltd. (ONELIGHT) manufactures a wide variety of LED lighting products, including energy-saving bulbs, bedroom lights, commercial high bay lights, and engineering-grade fixtures (). They provide customization and wholesale support, covering both indoor and outdoor applications, and integrate smart lighting solutions for professional setups.

Lighting Control Modules A lighting control module is a device that acts as the “control center” for a lighting system, enabling smart control via apps, sensors, or voice assistants (). Key features include: Turning lights on/off or dimming them automatically Changing colors or adapting lighting dynamically throughout the day Integration with smart home systems like Alexa, Siri, or Google Assistant Hard-wired or wireless installation options for flexibility Control modules improve energy efficiency, reduce wasted power, and enhance convenience in both residential and commercial environments. The global market for lighting control systems is growing rapidly, reflecting their increasing importance in modern lighting design ().

Summary A One-Light module can refer to either a single LED lighting unit from brands like ONE Light or Hangzhou Yid...
