

Papua New Guinea Agent for 10G Fiber Optic Ethernet Switches

AI Overview

Cetelnet, Theodist, and East Coast NetLink are key suppliers in Papua New Guinea capable of providing 10G fiber optic Ethernet switches and related networking solutions. Cetelnet is a full-service fiber optic supplier in Papua New Guinea with a strong presence in Port Moresby and other regions . They offer a wide range of fiber optic products, including single-mode and multi-mode cables, connectors, patch panels, and installation tools. Their services extend to network design, installation, splicing, OTDR testing, and certification, making them a reliable partner for deploying high-speed 10G Ethernet networks . Cetelnet also provides expert technical support and local stock availability, ensuring fast delivery and project continuity . Theodist operates showrooms in Port Moresby, Lae, and Mount Hagen, offering networking hubs and switches . While their website highlights general networking equipment, they can serve as a local point of contact for sourcing 10G fiber optic Ethernet switches and related components. Their local presence allows for direct consultation and support for enterprise or government network upgrades. East Coast NetLink specializes in fiber optics connectivity solutions for businesses and organizations across Papua New Guinea . They provide high-speed, secure internet access, data transmission, and cloud services through fiber optic networks. Their offerings include customized solutions for connecting multiple locations, enhancing data security, and optimizing cloud performance. They also provide satellite communications for remote areas, which can complement fiber-based 10G network deployments. Additional Options For a broader selection of verified cabling and fiber optics companies in Papua New Guinea, the PNGYP directory lists top suppliers and service providers . This can help identify additional agents capabl...
