

Portuguese manufacturer of optical cables for smart buildings

AI Overview

Key Portuguese manufacturers of optical cables for smart building applications include Cabelte, Barpa, Fibert, and Tratos Group, offering both fiber optic systems and structured cabling solutions. Cabelte is a well-established Portuguese manufacturer producing optical fiber cables, electrical cables, and telecommunication cabling for buildings, infrastructure, and industrial applications. They provide a wide range of services including installation, maintenance, and network commissioning, making them suitable for smart building projects that require both high-quality cabling and technical support. Cabelte is ISO 9001 and ISO 14001 certified, ensuring compliance with international quality and environmental standards (Cabelte).

Barpa specializes in structured cabling products, including fiber optic systems, copper cabling, racks, and cabinets. Founded in 2016 with headquarters in Portugal, Barpa serves over 20 countries and focuses on innovation, quality, and customer support. Their fiber optic solutions are suitable for FTTH, backbone networks, and internal building connectivity, making them a strong option for smart building infrastructure (Barpa).

Fibert focuses on turnkey projects for fixed fiber optic networks and low-voltage electrical installations. They have extensive experience in designing and installing FTTH and backbone networks across Portugal, covering both urban and remote areas. Fibert's expertise includes project management, site surveys, and licensing, which is valuable for large-scale smart building deployments (Fibert).

Tratos Group is a leading European fiber optic cable manufacturer with a presence in Portugal. They produce high-performance optical cables, including low smoke, zero halogen, and fire-resistant cables, suitable for indoor installations in smart buildings. Their FTTH range allows easy integration into residential and com...
