

Price List for Network Cabinets in Democratic Republic of Congo

AI Overview

Network cabinet prices in the DRC range from approximately \$100 for basic wall-mounted units to over \$3,000 for high-capacity or specialized outdoor models.

Price Ranges by Type

Wall-Mounted Cabinets (6U–12U): Ideal for small offices or home setups, these cabinets typically cost \$100–\$260, depending on features such as glass doors or enhanced ventilation. They save floor space and are suitable for routers, switches, and small networking equipment.

Floor-Standing Cabinets (12U–27U): Designed for medium to large offices or server rooms, these cabinets range from \$300–\$800. They offer better ventilation, higher load capacity, and easier access to equipment.

High-Capacity Server Racks (37U–48U): For data centers or large IT environments, prices can exceed \$1,000–\$3,000, especially for models with perforated doors, heavy-duty load capacity (up to 1,500 kg), and advanced cable management features.

Factors Affecting Price

Material: Basic steel frames are cheaper (\$50–\$200), while aluminum alloys with corrosion-resistant coatings add \$100–\$300, which is important for humid or outdoor environments.

Size: Larger cabinets cost more due to increased material, shipping, and labor.

Features: Glass doors, ventilation, adjustable rails, and locking mechanisms increase the price.

Customization: Custom solutions for specific IT setups may further increase costs.

Local Suppliers in the DRC

Shopit.cd: Offers a variety of network cabinets and server racks in Kinshasa and other regions.

CRXCabling: Provides wall-mounted, network, and server racks with capacities from 6U to 48U, including accessories like cable management and PDUs. They also offer custom solutions for corporate IT environments.
